

AMERICAN CONTROL & ENGINEERING SERVICE, INC.

American Control and Engineering Service is proud to announce:

Drilling and Tapping of Explosion Proof Enclosures!

ACES now offers drilling and tapping into explosion proof enclosures. Factory drilling can take up to 6 weeks or more. Customers who take advantage of ACES drilling and tapping services can expect:

- Two day turn around per order up to five enclosures
- Drilling and tapping of conduit entries from 1/2" to 2". (Larger entries can be done on special order, call us for more information)
- Switch operator and lamp penetrations 22mm or 30mm
