

AMERICAN CONTROL & ENGINEERING SERVICE, INC.

DESIGN, BUILD, INSTALL, REPAIR OF ALL CONTROL SYSTEMS

From initial design to panel assembly American Control and Engineering Service (ACES) is capable of handling all your control cabinet needs. Whether it is a single operator panel or a whole factory of networked stations we build custom enclosures of any size or quantity. We can also build to match existing equipment or to accommodate special environmental requirements.

Our panel shop is UL 508A and 698A listed. Your panels are built to the highest standards and most advanced technology, and we're also specially trained in the manufacturing of explosion-proof panels for use in environments containing gas vapors, paint fumes or other volatile substances.

All of our control cabinets are built with precision and care. We invest the thought and energy needed to design and build high quality cabinets that will be reliable and safe. Our customers range from large manufacturing plants to small independent shops. Cabinets have been designed for industrial, commercial, municipal, aerospace, and oil field applications.

Areas of Expertise:

- Detailed full panel layouts
- Schematics
- Racks
- I/O layouts
- Card drawings
- Compliant with NFPA 70, 79, 86, etc.
- In-house panel testing
- Field installation and start up
- Maintenance, upgrades, and modifications
- Explosion-proof panels

Features Include:

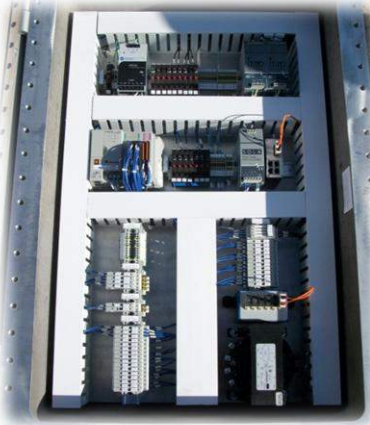

- High and Low Voltage Separation
- Safety Rated
- Explosion Proof
- Fan or A/C Cooling
- Motor and Pump and Burner Control
- HMI's
- PLC's
- PAC's
- Data Acquisition
- VFD's
- FSG's
- Wide Size Range
- Free standing or Wall mount
- Single to Multi-door
- Custom Cutouts
- Any NEMA Rating
- External Disconnects
