---

American Control & Engineering Service Inc. is seeking applicants for the following full-time position.

### **Controls Technician I**

ACES is seeking a Controls Technician who will be responsible for troubleshooting, repairing, and installation of PLC-based systems, providing technical field support, creating/reading electrical schematics, and debugging ladder logic. This is a hands-on position requiring a capability to solve complex problems.

### **JOB REQUIREMENTS**

#### **Qualifications:**

- Associate degree/ Technical Degree plus or an equivalence in experience
- Proficient in Microsoft office with ability to develop and create a Proposal and Quote
- Industrial manufacturing, 3-phase electrical, and mechanical maintenance experience
- 1+ years of experience in PLC and/HMI programming
- Ability to read electrical schematics
- Excellent oral and written communication skills
- Strong problem-solving skills
- Ability to learn, understand, and interpret industry related standards, protocol, codes, and regulations as they pertain to systems being designed, programmed, and installed.
- Ability to organize and effectively convey technical information to members of management, coworkers, and clients

PLC Common Systems, programmable logic, ladder logic, HMI, automation, Allen-Bradley, Rockwell, Siemens

Detail-oriented, self-starter with strong communication and organizational skills. The successful candidate will have a proven ability to multi-task and work collaboratively as well as independently in a dynamic environment.

### **BENEFITS**

A complete benefits package that includes paid holidays, medical/dental/vision coverage, health savings and 401(k) retirement plan offered to ACES full time employees.
